

GUIDE TO RESEARCH PORT (PORTAL TO LANGSDALE LIBRARY)

Research Port is the gateway to Langsdale Library's electronic resources. It enables you to access the library's subscription databases and locate additional web resources. You may search multiple databases in Research Port and access links to full-text resources using the FIND IT feature. You may also customize your own Research Port, adding favorite databases and online journals, storing searches for later use, search alerts and saving articles (see Customizing Research Port). NOTE: Research Port is only available to current students, faculty and staff with active library IDs.
