Nook, Sony, Kobo, and other Adobe DRM-compatible readers

—What you need—

- **Adobe Digital Editions** on your computer

—How it works—

1. Make sure pop-ups are enabled on your browser.
2. Access the EBSCOhost eBooks collection from the library homepage.
3. Sign into your EBSCOhost account.
4. Search for an eBook. Once you find one you want, click on **Download (offline)**. Click **download**.
5. In the next pop-up, choose whether you want to **open** or **save**. "Open" will immediately start Adobe Digital Editions and access the file. "Save" will save the file to your computer so you can open it later.
6. You can read the book on your computer, or go to the next step for how to transfer it to your device.
7. Click on the icon in the upper left to **Go to Library View**. The icon looks like a row of books.
8. Turn on your eReader & connect it to the computer .
9. You may be prompted to authorize the eReader with your Adobe Account (see "Before You Start").
10. The eReader's icon or name should appear on the left menu inside Adobe Digital Editions. If not, disconnect and then try again.
11. Click the **All Items** option on the left side of **Digital Editions** screen to see all your downloaded books. (**Kobo Users**: open **Manage Library** on your Kobo)
12. Click and hold on the book to transfer, then drag the book to your eReader icon or name on the left. Release it once you are over the right one.
13. Once the book has transferred, disconnect your eReader from the computer.
14. NOTE: the eBook might be listed in your eReader's documents folder instead of listed with books purchased from retailers.

Android Devices

—What you need—

- **Aldiko Book Reader** on your device (free app in Android Market)

—How it works—

1. Search the Android Market for the **Aldiko Book Reader** app. Download & install the FREE version.
2. Launch Aldiko.
3. To authorize your device for EBSCOhost books, Press the phone or tablet's options button and select **Settings**. Next, select **Adobe DRM** and login with your Adobe ID and password (see "Before You Start").
4. Access the EBSCOhost eBooks collection from the library homepage.
5. Sign into your EBSCOhost account.
6. Search for an eBook. Once you find one you want, click on **Download (offline)**. Click **download**.
7. <u>**DO NOT**</u> allow the browser to open Adobe Digital Editions (if you have it installed). Instead, **Save** the file (URLLink.acsm) to the computer in a location you can easily find.
8. Plug your Android device into the computer with the file transfer cable that came with our device (usually a USB cable).
9. Copy the URLLink.acsm file to the Android device, then disconnect the device from the computer.
10. Using the file browser on your Android device, find the URLLink.acsm file and select it.
11. The book should begin to download. Once it has downloaded it should open automatically in the Aldiko Book Reader app.
12. To install another new book, you should first delete the URLLink.acsm file from BOTH the Android device and your computer.

Transferring EBSCOhost eBooks onto eReaders

Prepared for:

university of baltimore LANGSDALE LIBRARY

Visit us at http://langsdale.ubalt.edu

Before You Start

—Create a free EBSCOhost account—

1. On the library homepage, click the **eBooks** link at the bottom of the search box.

2. On EBSCOhost, click **Sign In** at the top.

3. On the Sign In page, click the **Create a new Account** link (on the right side under the UB logo).

4. Fill out and submit the form. KEEP your **User Name**, **Password**, and **Secret Question/Answer**. (The library can't store them if you forget!)

—Create an Adobe account—
(used to validate eBooks checked out)

1. Go to http://adobe.ly/9xXHgv.

2. Click the yellow **Create an Adobe Account** button.

3. Fill out and submit the form on the next page. REMEMBER your **User Name** and **Password**.

4. Click **Continue** at the bottom of the page.

NOOK, SONY, KOBO, & DEDICATED EREADERS:
—Install *Adobe Digital Editions* on computer—

1. Go to www.adobe.com/products/digitaleditions/.

2. Click **Install** to download Adobe Digital Editions.

3. Follow the instructions to download and install.

4. Launch Adobe Digital Editions.

5. When prompted, enter the email address and password used to create your Adobe Account.

IPAD, IPHONE, OR IPOD TOUCH:
—Add the *Bluefire Reader* App—

1. Find and install Bluefire Reader in the App Store.

2. Launch Bluefire Reader.

3. When prompted, enter the email address and password used to create your Adobe Account.

iPod Touch and iPhone

—What you need—

- **iTunes** & **Adobe Digital Editions** on your computer

- **Bluefire Reader** on your device (free in App Store)

—How it works—

1. Make sure pop-ups are enabled on your browser.

2. Access the EBSCOhost eBooks collection from the library homepage.

3. Sign into your EBSCOhost account.

4. Search for an eBook. Once you find one you want, click on **Download (offline)**.

5. In the pop-up, select **download**.

6. In the next pop-up, choose whether you want to **open** or **save**. "Open" will immediately start Adobe Digital Editions and access the file. "Save" will save the file to your computer so you can open it later.

7. You can close Adobe Digital Editions as soon as the download is completed.

8. Connect your iPod Touch/iPhone to your computer.

9. Open iTunes.

10. Click on the name of the iPod Touch/iPhone under the **Devices** category in iTunes.

11. Click on **Apps** in the top center of iTunes.

12. Find the Bluefire Reader app under **File Sharing**.

13. Click on **Bluefire** to see a list of all documents readable through the app.

14. Click **Add** under the Bluefire documents list.

15. In **My Documents** find the **My Digital Editions** folder.

16. Pick the ebook that was downloaded & click **open**.

17. Click **Sync** at the bottom right corner of iTunes.

18. The eBook should now be listed in the Bluefire Reader app on your iPod Touch or iPhone.

iPad

—What you need—

- **Bluefire Reader** on your device (free in App Store)

—How it works—

1. Access the EBSCOhost eBooks collection from the library homepage.

2. Sign into your EBSCOhost account.

3. Search for an eBook. Once you find one you want, click on **Download (offline)**. Click **download**.

4. On the next screen, click the button that says **Open in Bluefire Reader**.

5. Bluefire Reader will automatically launch. Wait for the book to download (it may take a little while). The book will open automatically when it is downloaded.

Kindle

- Unfortunately, **Kindle devices are not compatible with EBSCOhost eBooks** at this time. You can get other eBooks online, but not from EBSCOhost.
